**Perilaku Delinkuensi** Oct 23 2019 Sistem sosial sebuah negara dan bangsa sangat dipengaruhi oleh keluarga. Dari zaman dulu sampai zaman now, penelusuran terhadap kenakalan remaja pada akhirnya akan jatuh pada pendidikan dan pola asuh dari sebuah keluarga. Dalam konteks masyarakat Indonesia, pengasuhan seorang anak memiliki arti luas, karena keluarga pasangan muda sering kali tidak sanggup mengasuh dan menangani anaknya sendiri. Ada banyak faktor keterbatasan yang menyebabkan hal ini terjadi pada pasangan muda, sehingga mereka memilih pihak lain selain keluarga inti untuk mengasuh anak. Pihak lain tersebut antara lain pengasuh bayi dan anak, asisten rumah tangga, kakek, nenek, tante, paman, keluarga kakak/adiknya, atau bahkan temannya, termasuk segala alat teknologi tanpa disensor, yang turut telah memengaruhi perkembangan akhlak anak. Dengan kesibukan orang tua dan gaya hidup zaman sekarang, banyak pasangan muda mengikuti tren menyekolahkan anak mereka di sekolah pendidikan usia dini (PAUD) atau tempat bermain, yang pada satu sisi dapat memberikan pengaruh positif dan pada sisi lain memiliki pengaruh negatif. Kepribadian dan cara pengajaran guru dan teman sekolah dapat memengaruhi perkembangan perilaku anak.

Selain itu, perkembangan zaman dan pesatnya kemajuan teknologi dapat memberikan dampak nyata, baik ke arah kemajuan ataupun kenakalan anak. Beberapa pendekatan dan metode ilmiah yang berkaitan dengan perilaku delinkuensi pada anak maupun remaja akan dibahas dalam bunga rampai rangkuman ilmiah yang berjudul Perilaku Delinkuensi: Pergaulan Anak dan Remaja Ditinjau dari Pola Asuh Orang Tua. Dalam bunga rampai ini, para pembaca akan menemukan berbagai perilaku perkembangan anak sejak usia prasekolah, yang jika ditangani sedini mungkin melalui Perilaku Delinkuensi: Pergaulan Anak dan Remaja iv Ditinjau dari Pola Asuh Orang Tua pendekatan dan metode ilmiah, dapat memberikan dampak perkembangan positif. Pada umumnya, kita memahami bahwa masa remaja adalah masa yang penuh dengan tantangan, karena pada masa remaja terjadi perubahan signifikan pada fisik, mental, maupun kecerdasan emosi. Kondisi perubahan hormonal dapat disalahgunakan oleh para remaja untuk melakukan aktivitas seksual. Hal ini dipicu oleh media teknologi informasi yang menawarkan konten pornografi, pre-marital seksual aktivitas yang dipengaruhi oleh budaya barat, serta berbagai perilaku agresivitas dan bullying melalui media sosial yang telah berkembang sangat pesat. Untuk mengatasi masalah perilaku delinkuensi anak dan remaja, rangkuman dari beberapa penelitian ini dapat memberikan beberapa solusi. Antara lain melalui pembahasan tentang efektivitas

pendidikan 'life skill' untuk mencegah remaja terjerumus dalam perilaku penyalahgunaan minuman keras, tembakau, dan obat-obatan yang dapat merusak masa depan mereka. Bunga rampai kumpulan ilmiah ini juga menitikberatkan tentang pendidikan agama dan pola asuh orang tua. Semoga buku ini dapat dipergunakan sebagai referensi bagi banyak keluarga.

Adolescent Health and Wellbeing Jun 30 2020

This book presents a detailed and updated review of the widespread changes that take place during adolescence, adopting a preventive perspective that reflects physical, social, cognitive, and emotional changes. It addresses a broad range of aspects, including: the preventive programs and their systemic effects; the role of environment in influencing the healthy behaviors of adolescents and young adults; the use of e-Health technology in health and behavioral interventions for adolescents; and the clinical and prognostic implications of primordial prevention in healthy adolescents. All of these elements are subsequently reviewed using a multidimensional approach, in order to offer extensive information on the complex changes that characterize adolescents' physiological, psychological, and neurobiological development. In addition, the book depicts the preventive strategies currently used in various social settings (school, family, sport club, health policies) aimed not only at reducing lifestyle risk behaviors, but also at

improving resilience, happiness, social involvement, self-esteem, and sociability. This update is essential in the light of the fact that, to date, prevention has mainly been directed towards adolescents with physical or mental disorders rather than their healthy peers. As such, the book offers a valuable tool for pediatricians, child and adolescents psychiatrists, and for all professionals involved in Health Promotion and Disease Prevention.

**Therapeutic Alliances with Families** Jul 12 2021 This practical breakthrough introduces a robust framework for family and couples therapy specifically designed for working with difficult, entrenched, and court-mandated situations. Using an original model (the System

for Observing Family Therapy Alliances, or SOFTA) suitable to therapists across theoretical lines, the authors detail special challenges, empirically-supported strategies, and alliance-building interventions organized around common types of ongoing couple and family conflicts. Copious case examples illustrate how therapists can empower family members to discover their agency, find resources to address tough challenges, and especially repair their damaged relationships. These guidelines also show how to work effectively within multiple relationships in a family without compromising therapist focus, client individuality, or client safety. Included in the coverage: Using the therapeutic alliance to empower couples and families Couples' cross-complaints Engaging reluctant adolescents...and their parents Parenting in isolation, with or without a partner Child maltreatment: creating therapeutic alliances with survivors of relational trauma Disadvantaged, multi-stressed families: adrift in a sea of professional helpers Empowering through the alliance: a practical formulation *Therapeutic Alliances with Families* offers powerful new tools for social workers, mental health professionals, and practitioners working in couple and family therapy cases with reluctant clients and seeking specific, practical case examples and resources for alliance-related interventions.

**Resistance to Belief Change** Dec 17 2021 This book examines the human proclivity to resist changing our beliefs. Drawing on

psychological, neurological, and philosophical research, and integrating topics as wide ranging as emotion, cognition, social (and physical) context, and learning theory, Lao and Young explore why this resistance to change impedes our learning and progression. They also suggest that failure to adapt our beliefs to available and informed evidence can incur costs that may be seen in personal growth, politics, science, law, medicine, education, and business. *Resistance to Belief Change* explores the various manifestations of resistance, including overt, discursive, and especially inertial forms of resistance. As well as the influential factors that can impact upon them, the book also examines how the self-directed learner, as well as teachers, may structure the learning experience to overcome resistance and facilitate progressive and adaptive learning. Lao and Young find that the impediments to learning and resistance to change are far more prevalent and costly than previously suggested in research, and so this book will be of interest to a range of people in cognitive development, social psychology, and clinical and educational psychology.
